Let us drop politics for a while Thanksgiving day is upon us and Christians with its social pleasures and honored associations will soon be here. Politics separates a community into actions and too often those who should, and would be fast friends are divided by party antagonism and this is often the case when both parties are trying to accomplish the same result, only by different means. That it should be so seems natural, for we even see different branches of the church which we know are trying to accomplish the same result, embittered against each other by denominational prejudices. While it seems natural, it is often to be regretted. Let us examine the situation closely. Find out definitely what we desire to do and then select the means which are best calculated to accomplish this result, and we will soon learn that this government can be killed without personal antagonisms.

All ladies who may be troubled with nervous prostration; who suffer from organic displacement, who have a sense of weariness and a feeling of astitude; who are languid in the morning; let us examine the situation closely. Find out definitely what we desire to do and then select the means which are best calculated to accomplish this result, and we will soon learn that this government can be killed without personal antagonisms.

All kinds of syrups and molasses on hand, the very finest new crop New Orleans 85 cts. Portorico low as fifty cents and good syrup for fifty cents per gallon at W. C. BARRON'S.

A PLEASANT WEDDING.—The marriage of Mr. Charles Burmer and Miss Mary Hughes, both of this place, at the Presbyterian Church, yesterday morning, was well attended. The ceremony was performed by Rev. R. H. Fleming. After receiving the congratulations of their many friends, the happy couple started upon their tour to Pennsylvania. May they realize all the happiness which they have anticipated is the sincere desire of their many friends.

On next Tuesday night, the Democrats of this county propose to have an illumination and torch light procession in Woodstock, in honor of the recent victory achieved by the Democratic party. If the demonstration should be commensurate with the great victory, it will be a stupendous affair. Don't fail to be present, or you will miss a grand display of patriotic enthusiasm.

The conditionists had their jollification there last w-dnesday night. They had a hundred lighted torches, two brass bands, a procession of horsemen and a procession on foot, some fire-works, a big pine fire and four or five speches. The jollification was really larger than the victory they claimed. The Democrats with the knowledge that the victory was on the other side, that congress will be democratic by a majority and that a large majority of the States are democratic and that even Virginia is equally divided, were in a fine humor to enjoy the display. We felt like letting them have all the illumination, while we enjoyed the grand victory which has just swept the country.

But these jollifications are contiguous and the Democrats propose to celebrate the real victory which we have gained on next Tuesday night. Let the people come and hear how great the victory has been.

Should the weather prove favorable the display which the Democrats propose to make in Woodstock, next Tuesday night, will be one of the grandest affairs ever witnessed in the county. A sufficient number of swinging torches will be on hand for the use of all who join in the procession. Let every Democrat turn out.

HOMES KILLED AND INJURED ON THE RAILROAD.—Last Monday night Mr. Rock, who lives near Kimball, had two valuable horses killed by being run over by the cars. Also, one day last week, Capt. H. F. Bradley, who lives in the same neighborhood, had a very fine horse injured in the same way in such a manner that he fears that he will lose entire use of him. He had a short while before been offered \$150 for him.—Courier.

A SAD AFFLICTION.—It is with a feeling of deep sadness that we record the death of little Frank, only son of Rev. W. G. and Mary C. Campbell of Bridgewater, Rockingham Co., Va., and formerly of this place. He was a very bright and interesting little fellow, and his early death from diphtheria, at the age of four years and two months, has made many sad hearts. His parents have the sympathy of their many friends in their heavy affliction.
